

# BATH MAT CARE INSTRUCTIONS

Please read carefully prior to use

## IMPORTANT

To ensure that the mat stays firmly in place, it must be no bigger than the shower tray or bath in which it will be used. Shower gels, foaming bath products should be rinsed away thoroughly from the surface and the mat.

## INSTRUCTIONS FOR BATH MAT

Once bath is filled, position mat and place securely by pressing down relief cups at the sides and center of the tub. Ensure mat is attached securely before entering tub.

## CARE

Always rinse mat after use—foaming bath products should be rinsed away thoroughly—dry flat or rolled.

Machine washable at 60°C.

NEVER LEAVE ANY BATH MAT ON A *RESURFACED* TUB as this may result in damage to the coating.
