Dear Herb;

I am writing this letter to talk to you about your great product "Quick Tub." We here at the Georgian Retirement Residence were honored to use the prototype for almost a year for testing. From the time it was installed it was a fantastic product. We had to put it in place for a lady who moved in with an electric tub chair which put her in and out of the tub. She insisted on using the tub. It was lucky that you had designed the new door just at that time. She was and still is very impressed with it and when the new product was in production we bought two, one for this lady and one for anyone else who comes into a room which has a cut out and wants a tub. I have promoted the "Quick Tub" product to all my peers in the retirement industry. It is a wonderful product which gives a home (retirement residence or private) the choice of a tub or walk in shower. I am very happy to recommend this product to all who will listen.

Regards,

Brenda Tozer R.N.
